

Dear New Third Grade Families,

Congratulations on finishing 2nd grade!! Over the summer months, the students are asked to complete two book reports, a summary on one book of their choice from the attached list and an opinion essay on a different book of their choice from the attached list.

In addition to completing the book reports, please have your child practice his/her math skills over the summer. It is crucial that your child knows her/his addition and subtraction facts for 3rd grade. To keep sharp on taught skills from grade 2, your child should complete the math packet posted on the website. Doing a page everyday will be sufficient practice. Please have your child return the packet on the first day of school along with their book report forms.

In closing, I wish you and your family a restful and refreshing summer vacation.

Have a great summer!

Mrs. Mazza
