

June, 2019

Dear Parents of Students entering Fourth Grade in September of 2019,

Attached please find a summer reading packet for your child. Included is a list of suggested summer reading books as well as the two assignments your child is required to complete over the summer. Your child will need to read two books from the suggested reading list, or may select a grade appropriate book of choice.

The first reading assignment asks that students choose one book and write a summary of that book. The second assignment asks that students read a *second* book and write an opinion of that book. The attached forms will help guide students with this assignment.

Also attached is a summer math packet that your child is expected to complete over the summer. Your child is also expected to continue working on XtraMath. It is also recommended that your child work on his/ her addition, subtraction and multiplication math facts over the summer. Flash cards are a great way to help study these. Beginning in September, your child will have weekly multiplication quizzes, so it important that these facts are memorized before the start of the year.

There is a fourth grade website where you can find helpful information. A copy of the summer reading list, assignment and supply list can be found there or on the Sacred Heart School website.

My website address is: [www.menadue.weebly.com](http://www.menadue.weebly.com)

I hope you all have a wonderful summer! I look forward to meeting you and your child in September.

Sincerely,

Mrs. Menadue
